I am a motivated person who loves to learn new programming languages and to find new ways to create projects. It gives me energy to collaborate with co-workers to construct unique projects, but I can also work independently.

## EDUCATION

SEPTEMBER 2019 - PRESENT

**BACHELOR APPLIED COMPUTER SCIENCE**

THOMAS MORE COLLEGE, GEEL

SEPTEMBER 2011 – JUNE 2019

**SPORT-SCIENCE**

KONINKLIJK ATHENEUM, AARSCHOT

## EXPERIENCE

MARCH 2022 – MAY 2022

**INTERNSHIP CV-APPLICATION**

JUVO HERENTALS, BELGIUM

At Juvo, I was able to learn how a project is structured. During this internship I could learn more about front end, back end and also the interaction between the development team and customer. This was a perfect opportunity to learn how to function in team.

SEPTEMBER 2021 – DECEMBER 2021

**ERASMUS INFORMATION TECHNOLOGY**

JYVÄSKYLÄ UNIVERSITY OF APPLIED SCIENCES, FINLAND

Being an exchange student, I didn't just meet new people, I also learned to think in a different way. As a stranger I had to adjust myself without losing the real me. Not everything is equally important, so it is useful to find out how others work in different countries.

FEBRUARY 2018 – PRESENT

**LIFEGUARD**

SWIMMING POOL DE BEELTJES WESTERLO, BELGIUM

Working as a lifeguard, I came into an environment where I had to be openminded and conflict solving. At this place I learned working in team but also to take initiative and leadership at the right time.

## EXTRA PROJECTS

- [Portfolio website made with Tailwind CSS](#)
- [Interactive map that shows data from 1834](#)
- Websites for a friend: [LM-Sounds](#) & [Roof cleaning LM](#)
